WORK EXPERIENCE

Frontend Software Developer

IDENTITY ON FIELD

2023-Present

Responsible for leading the development and maintenance of the company's core application. This application, vital to our operations, has been built with a modern approach using technologies like React, Redux, Typescript, and Bootstrap. My duties include continually enhancing the user experience, implementing new features, and optimizing performance to ensure our application is efficient and at the forefront of the industry.

Fullstack Software Developer

GRUPO MULTI

2022-2023

Led the creation of advanced logistics web applications for Grupo Multi's warehouses, employing C#, .NET Framework for robust backend solutions, and HTML, CSS, JavaScript, and Bootstrap for user-friendly frontend experiences

Full-Stack Software Developer Trainee

GOIAR

2020-2022

Involved in the strategic development of Qavant, a potent HR administration solution for internal and external clients; streamlined database data loads, emphasized user experience, and tailored the tool's appearance and access features to enhance user satisfaction and usability while I was studying

EDUCATION

Information Systems

UNIVERSIDAD DE PALERMO

2023-Present
