## PROFILE

I possess proficiency in a diverse range of technologies, including React, Javascript, ASP.NET, C#, and Microsoft SQL Server. With hands-on experience and continuous learning, I have developed a deep understanding of these technologies and their practical applications in software development. Additionally, I am knowledgeable in user interface design, testing methodologies, and debugging processes. This allows me to create intuitive and visually appealing user experiences while ensuring high-quality software through thorough testing and effective bug resolution.

## EMPLOYMENT HISTORY

### Front-End Software Developer in Identity on Field

**March 2023 – present**
Currently, I hold the position of the lead front-end developer, responsible for spearheading the development of the company's primary front-end utilizing React and Redux. In this role, I collaborate closely with the design and backend development teams to ensure seamless integration of the user interface and functionality. Leveraging my expertise in React, Redux, Git, JavaScript. I successfully deliver high-quality applications.

### Software Developer in Grupo Multi

**May 2022 – February 2023**
Oversaw the analysis and development of cutting-edge web applications in the logistics domain, specifically for Grupo Multi's warehouse operations. Utilized C# and .NET Framework to build robust back-end solutions, while employing HTML, CSS, JavaScript, and Bootstrap for intuitive front-end experiences.

### Software Developer Trainee in GOIAR

**Oct. 2020 – Feb. 2022**
Active participation in the planning and development of the Qavant tool, a powerful HR administration solution utilized by internal and external clients. Optimized data loads in the database and prioritized a seamless user experience. Customized the tool's "Look & Feel" and access functionality to meet client preferences, resulting in enhanced user satisfaction and improved usability.

**Backoffice Junior in SIEMENS**
**Jan. 2019 – Mar 2019**

Integral member of the development and analysis team responsible for designing and implementing advanced digital sales tools, including the 'E-Commerce' platform. Supported Siemens Argentina's comprehensive range of products and services within the Digital Industry sector. Demonstrated proficiency in product management, taking ownership of product loading and database maintenance.

## EDUCATION

### NATIONAL TECHNOLOGICAL UNIVERSITY (UTN)
May 2022 – Nov 2022

**University Technician in Computer Systems.**

Graduated as Technician in computer systems. Associate degree computer science.

### NATIONAL TECHNOLOGICAL UNIVERSITY (UTN)
Aug 2019 – Nov 2021

**University Technician in Programming.**

Graduated as Technician in computer systems. Associate degree computer science.

## SKILLS

| | |
|---|---|
| HTML & CSS | SQL Server |
| Javascript | MySql |
| C# | MongoDB |
| ASP.NET | Android |
| MVC | Microsoft Office |
| C++ | React |
| Java | Learning Redux |

## HOBBIES

Continuing Education in Programming: In my free time, I am dedicated to expanding my programming skills by taking online courses. Currently, I am enrolled in a React course to further enhance my knowledge in Front-end programming. This proactive approach demonstrates my commitment to staying up-to-date with the latest technologies and continuously improving my professional skillset.

Physical Fitness: I prioritize maintaining a healthy lifestyle and find joy in engaging in physical activities. Regularly, I engage in activities such as going to the gym, running, or taking long walks. By investing time in physical fitness, I not only maintain my physical well-being but also foster discipline, perseverance, and a balanced approach to life.
